SECURITY

Braking Systems

There is no freedom without security.

Friedrich von Humboldt

.)

NO COMPROMISE FOR YOUR BRAKING SYSTEM.

We develop the ideal Braking System for the specific customer requirements. Caliper, Friction ring and Braking Pad are perfectly adjusted to each other. MOV'IT® SECURITY Braking Systems provide highest braking force in smallest space.

Caliper MOV'IT®

- Extremely stiff alloy
 - > Supreme stability
 - > Highest braking force
- Progressive piston arrangement
 - > Even heat transfer
 - > Even pad wear
- Open pad setting
 - > Optimized Cooling

1

2

Friction ring MOV'IT®

- Highly efficient DDE™ Cooling system
 - > Double directional evolvent
- Special alloy
 - > Superior thermal conductivity
 - > Highest fading resistance

3

Braking pad MOV'IT®

- Enhanced friction surface
- Even heat transfer
- Lower system temperature
- Longer Lifetime

4

RELIABILITY.
DURABILITY.
PERFORMANCE.
